

MedStar Health

MedStar Heart & Vascular Institute

Non-invasive vascular imaging: High volumes, greater accuracy.

At 17 laboratories across the region, our elite specialists use state-of-the-art technology to ensure that the first diagnosis your patient receives is the right diagnosis.

All labs are accredited by the Intersocietal Accreditation Commission, providing confidence that high standards and best practices are applied consistently and meticulously.

RPVI®

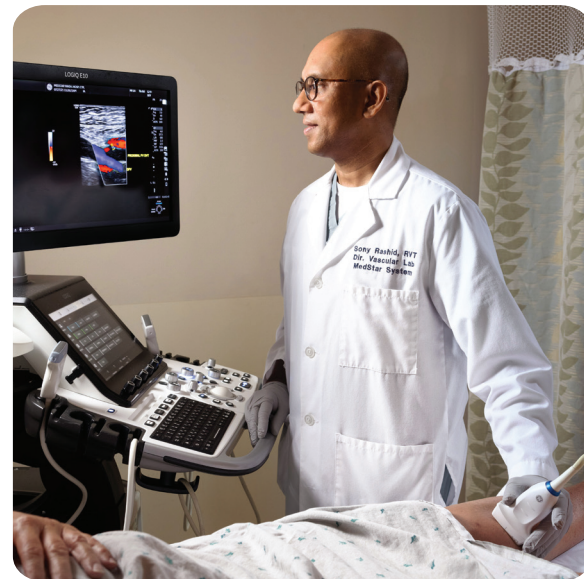

Each study is interpreted by vascular surgeons who hold Registered Physician in Vascular Interpretation (RPVI) certifications.

28,000

With 28,000 studies performed annually, our program has one of the highest volumes in the region.

Our sophisticated imaging technology is constantly monitored for overall quality, safeguarding against any variability in the equipment or readings.

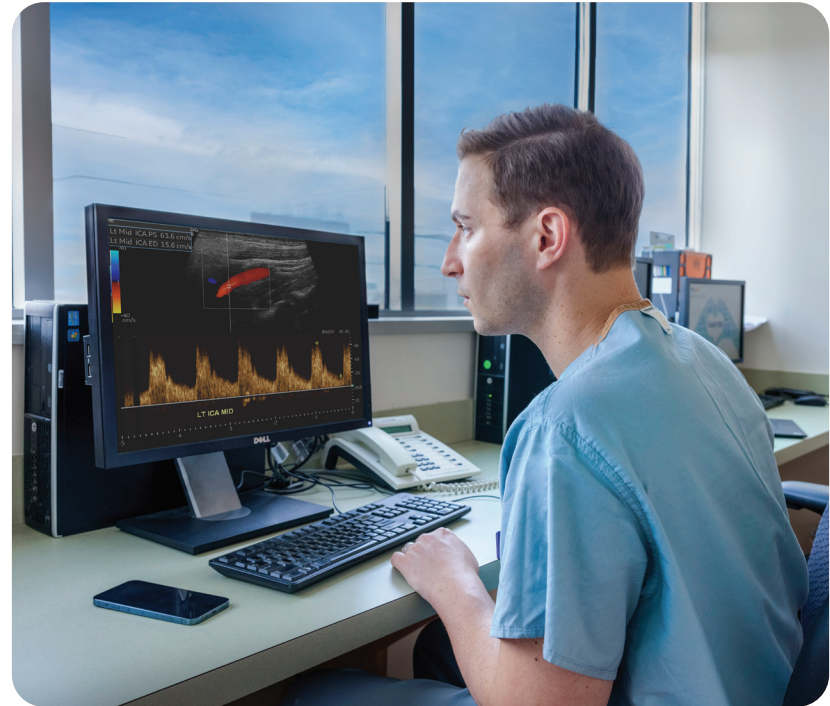

It is an honor to be your trusted partner in the care of your patients.

We provide advanced diagnostic and treatment options for conditions of the carotid, peripheral, and abdominal venous and arterial systems, including:

- Ankle-brachial indices
- Bypass graft interrogation
- Carotid, aortic and renal artery duplex scanning
- Mesenteric/cealic arterial duplex scanning
- Peripheral arterial duplex scanning
- Raynaud's testing
- Segmental pressures and waveforms analysis
- Screenings, in accordance with CMS guidelines
- Thoracic outlet syndrome testing
- Venous insufficiency assessment
- Venous duplex evaluation
- Venous mapping

Reports are delivered to the referring physician promptly, via phone, fax, or MedConnect.

We offer expedited scheduling, convenient parking, and accept a wide variety of insurance plans which cover nearly all studies.
